Laserfiche Cloud

Laserfiche Cloud is a Software as a Service (SaaS) solution that provides a central digital repository accessible from anywhere.
Capture Documents From Any Device

Laserfiche Cloud makes it easy to centralize paper and electronic files from multiple devices.

- **Scanning**: Convert paper records to imaged files on demand by connecting your scanner to Laserfiche Cloud with the Laserfiche Scanning tool
- **Digital Capture**: Reduce back-office work by saving to default folders with one click, auto-importing documents and automatically populating metadata
- **Mobile Capture**: Turn photos taken on phones and tablets into searchable, secure documents

Simplify Process Management

Save hours of staff time with built-in business process management tools that boost staff productivity and simplify task management for resource-intensive, multi-department processes including invoice processing, travel and expense management and contract management.

- **Electronic Forms**: Create and publish customized e-forms that require no coding or scripting
- **Work Automation**: Kick off routing and approval workflows when e-forms are submitted
- **Process Management**: View dashboards and reports of all submitted forms, pending and complete tasks and approval histories
- **Mobile Integration**: Review and approve submitted forms from any mobile device to keep business processes moving forward no matter where you are
Enable Rapid Adoption With User-Friendly Features

Get employees, customers, contractors and third parties using digital documents quickly with repositories that provide filtered, personalized views of files and options.

- **Custom User Views:** Filter by recently opened, frequently used and active documents
- **Rich Search:** Instantly retrieve documents with quick and advanced search options tailored to individual users’ security rights
- **Robust Metadata:** View and modify all document metadata, annotations, fields and other modifications in a single user-friendly pane
